

Hi Charity Crew and everyone at Romilly Primary,

A quick update from Guatemala!

Our girls under 12 football team have recently been competing in football matches against other schools in the village. They beat the other schools one by one and on Friday they beat the last school 2-1 and were named champions of Itzapa!! This was a huge achievement for the girls and the whole school. We like to think the daily fruit we give the children keeps them healthy and gives them the energy they need to be the winning football team! They have now been invited to play against other towns and villages. We are looking into getting them a football shirt and if they will be able to go to other towns to play, for most of the children this will be the first time they will leave their village, so it would be a very exciting day! They could become the champions of Guatemala!

There are some photos attached of the girls' team with their coach, Blanca, and the playground where the children practice football.

More updates soon!

Moli 😊
